=====
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical

order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that

the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

To: All Disadvantaged Business Enterprise Program Stakeholders:

On September 30, 2025, the U.S. Department of Transportation (DOT) issued an [Interim Final Rule \(IFR\)](#) making significant changes to the Disadvantaged Business Enterprise (DBE) and Airport Concession DBE (ACDBE) Programs. The IFR was published in the Federal Register on October 3, 2025, and is effective immediately. Caltrans and all subrecipients of federal transportation funding subject to the DBE Program are required to comply.

While we continue to evaluate the new IFR, we want to share the information below to keep you apprised of this development and new requirements. We will share additional information when available.

However, as an interim action and to ensure compliance with federal direction, here are DBE program changes effective immediately:

Key Changes

- **Elimination of Presumptions:** Race-and gender-based presumptions of social and economic disadvantage are removed. All applicants must now demonstrate social and economic disadvantage through individualized evidence, including a personal narrative and financial documentation.
- **Reevaluation of All Firms:** Every currently certified DBE/ACDBE will undergo reevaluation. Firms meeting the new standards will be recertified; those that do not will be decertified.
- **Temporary Suspension of Goals and Counting:** Until reevaluations are complete, Caltrans and all subrecipients must **not**:
 - Set DBE/ACDBE contract goals.
 - Count DBE/ACDBE participation toward overall program goals.
- **Existing Contracts:** Contracts already awarded remain valid; however, DBE/ACDBE commitments and participation under those contracts cannot be

counted toward goal attainment during the reevaluation period. Primes may self-perform or subcontract work as necessary, without DBE credit, if a DBE is terminated. Those DBEs that are actual subcontractors (not just material suppliers), primes still need to follow subcontracting rules (i.e., termination, substitution, etc.) even if the DBE subcontractors are no longer “DBEs.”

- **Goal Setting:** All DBE goal requirements are suspended effective October 3, 2025. Do not set DBE goals on contracts. Contracts currently advertised or pending award with DBE goals must have their DBE goals removed. Statewide DBE goal setting will resume once reevaluations of all DBEs are complete.
- **Reporting Requirements:** DOT has eliminated the collection of race-and sex-specific ownership data; reporting will instead focus on certification status and individualized eligibility. We await DOT guidance on the collection of data for future reporting.

Next Steps

- **Caltrans Staff:** Will apply the new certification standards immediately and will work with the Unified Certification (UCP) Partners to reevaluate all certified firms.
- **CUCP Partners:** Update the UCP Standard Operating Procedures, approve the new Personal Narrative requirement, begin applying the new certification standards immediately, and reevaluate all certified firms.
- **Prime Contractors:** Do not submit utilization plans or commitments tied to DBE credit during this transition. Ensure solicitations to your subcontractors on advertised projects pending award are amended to reflect zero DBE goals until further notice.
- **Certified DBEs:** Be prepared to submit individualized documentation of disadvantage as part of the reevaluation process. Templates and technical assistance will be provided by your certifying agency, including Caltrans.
- **Local Agencies:** Pause inclusion of DBE goals in all federally assisted solicitations. Work with your Legal to implement addenda where solicitations are already advertised. Caltrans Civil Rights staff are available to provide technical assistance or suggest language.

Again, Caltrans will issue further detailed instructions, host training sessions, and provide outreach to ensure all partners understand and comply with the new requirements.

We recognize the burden these immediate changes create for firms, contractors, and local agencies. Our Office of Civil Rights is committed to supporting you through this transition.

Please direct questions to 916-324-0990 or DBE.compliance@dot.ca.gov.

Thank you for your partnership.

Sincerely,
